Did you know we offer lash and brow tinting?

We have an awesome service for the upcoming Summer months!

Lash and brow tinting are beauty treatments that involve dyeing the eyelashes and eyebrows to enhance their color, shape, and definition. The process uses specially formulated (for use around the eyes), semi-permanent dyes that can last several weeks.

Benefits: These treatments can make your

lashes and brows appear thicker, darker, and more defined, eliminating the need for daily makeup application.
Duration: The results typically last up to four weeks, depending on individual hair growth and care.
